<b>Brief Explanation</b> (aims and expected outcome) (max100 words)	Adolescence is a transitional period in many respect. Is it possible to create a hub involving teenagers bodily, emotionally and socially? Can we design a sequence of spaces to encourage them to communicate, exchange and share their ideas, attitudes, tastes and experiences , providing some opportunities for some physical activities and gathering. How can we maintain satisfactory virtual and real space qualities? Can we build a bridge between play and reality and set a stage for having fun while trying to achieve it.  <b>GENÇHUB</b> Gençlik birçok bakımdan bir geçiş dönemidir. Gençlere yönelik bedensel, duygusal ve sosyal bir 'hub' oluşturmak mümkün müdür? Fiziksel etkinlikler ve bir araya gelmek için fırsatlar sunan; fikirleri, tutumları, zevkleri ve deneyimleri hakkında iletişim kurmalarına, fikir alışverişi yapmalarına ve paylaşımlara olanak sağlayıp teşvik edecek bir dizi alan tasarlayabilir miyiz? Tatmin edici sanal ve gerçek mekan kalitesini nasıl sağlayabiliriz? Oyun ile gerçeklik arasında bir köprü kurabilir ve onu gerçekleştirmeye çalışırken eğlenmek için bir sahne yaratabilir miyiz?
